

PRANSHU TIWARI

AI Engineer | Full-Stack Developer | Agentic AI & GenAI Specialist

+91 8700690700 • pranshutiwari560@gmail.com • github.com/Pranshu51 • linkedin.com/in/pranshutiwari • my-portfolio-two-swart-20.vercel.app • Delhi, India

PROFESSIONAL SUMMARY

B.Tech AI & Data Science student (CGPA: 9.2/10) with industry internship experience, 2 hackathon wins (IIT Delhi), and 50+ public GitHub repositories. Specialises in Agentic AI systems, GenAI applications, and full-stack web development — building production-ready tools using LangGraph, RAG pipelines, multimodal AI, and modern web stacks. Certified in GenAI and AI/ML/DS via Udemy.

EXPERIENCE

Software Development Intern | Cantilever Labs

2025 | 1 Month

- Contributed to full-stack feature development using React.js and Node.js in an agile team environment, delivering assigned modules within sprint deadlines.
- Collaborated on REST API design and integration, gaining hands-on exposure to production codebase standards, code reviews, and deployment workflows.

EDUCATION

B.Tech — Artificial Intelligence & Data Science

Jul 2023 – May 2027

Vivekananda Institute of Professional Studies, Delhi | CGPA: 9.2 / 10.0 | Coursework: DSA, Machine Learning, Neural Networks, DBMS, OOP

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, Java, C++

AI / GenAI: LangGraph, LangChain, RAG, Agentic AI, Gemini API, HuggingFace, Ollama, Multimodal AI, NLP, Sentiment Analysis

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3, Responsive UI

Backend: Node.js, Express.js, FastAPI, RESTful APIs, WebSockets (Socket.io)

Databases: PostgreSQL, Prisma ORM, Schema Design

Tools: Git & GitHub (50+ repos), Postman, JWT Auth, Vercel, VS Code

HACKATHONS & AWARDS

 **Best Idea Award — Agents in Production Hackathon**

2025

Organised by IIT Delhi in partnership with Composio | Won for innovative agentic AI system design among 200+ participants

 **Winner — Imagen AI Hackathon**

2025

Organised by IIT Delhi | First place for AI-powered image generation application; recognised for technical depth and real-world impact

Participated in 20+ hackathons across AI, Full-Stack, and product domains — consistently reaching finalist and winner rounds.

KEY PROJECTS

Agentic AI System | Python, LangGraph, LangChain, RAG, Ollama, HuggingFace, FastAPI

2025

- Built a modular agentic AI framework: tokenisation, prompt engineering, API integration, RAG pipelines with queue management, memory agents, and a Claude CLI agent — 12 functional modules.
- Integrated Ollama (local LLMs) with FastAPI and LangGraph for stateful multi-step reasoning workflows; implemented image understanding and HuggingFace model inference.

Multimodal Hallucination Mitigation System | Python, Multimodal AI, FastAPI

2025

- Engineered a medical AI system fusing X-ray image analysis with patient report documents to cross-validate diagnostic outputs and reduce AI hallucination in clinical contexts.
- Multimodal fusion of vision and text inputs generates grounded, evidence-backed medical summaries — directly aligned with IIT Delhi hackathon winning work.

AI Recruiter Copilot | Python, LangChain, FastAPI, NLP

2025

- Built an AI-powered recruitment assistant that parses resumes, matches candidates to job descriptions using semantic similarity, and generates structured shortlisting reports autonomously.

Lovable Clone — SaaS Web App | Next.js, TypeScript, Tailwind CSS, Node.js, JWT Auth

Oct – Nov 2024

- Built a modern SaaS-style application with Next.js SSR, dynamic routing, JWT auth (refresh token rotation), and protected routes — production-grade auth flow end to end.
- Responsive, accessible UI with Tailwind CSS (mobile-first); clean separation of concerns (services, hooks, components) simulating enterprise-grade project organisation.

Real-Time Chat App & Full-Stack Platforms | React.js, Node.js, Socket.io, PostgreSQL, Prisma ORM

2024

- Real-time chat with WebSocket (Socket.io), 1,000+ concurrent connections, <100ms latency, JWT-secured channels, typing indicators, and persistent PostgreSQL message history.
- Brainly clone (Q&A platform, MVC REST APIs, Prisma ORM, protected React SPA) and Invoice/PDF GenAI chatbots (Gemini API, NLP pipeline, 95%+ field extraction accuracy).

CERTIFICATIONS

Generative AI — Udemy | AI / Machine Learning / Data Science — Udemy | 50+ public repos: github.com/Pranshu51
